EXPERIENCE

Front End/React js Developer

Shadbox Infosystem Pvt Ltd Nagpur

📅 Jan 2023-May 2025

- **Project Name – Pregnancy Wellness**
  - Built a responsive frontend for a pregnancy support application that enables users to generate test profiles using AI to simulate maternal scenarios.
  - Integrated AI-powered chat support using OpenAI and WebSocket for real-time maternal health assistance.
  - Developed calendar functionality with Google Calendar sync and implemented both manual and automated profile workflows with validation and error handling.
  - **Tech Stack:** Next.js, Tailwind CSS, OpenAI, WebSocket
- **Project Name– FairFax-Egg-Donor Description**:
  - The app serves as a platform connecting egg donors and recipients anonymously. It facilitates various functionalities, including appointment registration with doctors, lodging complaints, providing feedback, and tracking the status of applications
  - **Responsibilities**: Developed an Egg Donor platform using React.js, Redux Toolkit, and Redux-Thunk middleware to manage project state efficiently. Integrated APIs through the Redux store for seamless front-end-back-end communication, demonstrating expertise in Redux. Using Formik for streamlined form management, enhanced user experience, and precise data handling.
  - **Technical Stack:** ReactJs, Redux, Sass
- **Project Name - Procore**:
  - Enhanced the Schedule Tool within Procore's construction management platform. Developed new features, resolved bug fixes, and addressed Jira tickets for continuous improvements. Implemented multilingual support using JSON-based translations. Fixed PDF exporting issues, ensuring seamless report generation.
  - **Technical Stack:** React.js, SCSS, Redux, Jest, Cypress

React Developer Intern

Shadbox Infosystem Pvt ltd

📅 Oct 2022 - Jan 2023

- **Description**: Designed and developed a responsive, SEO-friendly website for Shadbox.com using React.js and Tailwind CSS.
- Implemented interactive UI features and background particle animations with React packages.
- Dynamic elements such as navigation menus, forms, and modals built to improve UX.
- The website was deployed on Amazon Web Services for scalability and performance.
- **Project URL**- https://shadbox.com/
